### LED

|               | Lamp 1        | et Lamp 2 |
|---------------|---------------|-----------|
| Type de lampe | Ledmodule     | A60       |
| Quantité      | 2             | 3         |
| Wattage       | 6W            | 12W       |
| Voltage       | 230V          | 6W        |
| Kelvin        | 2700K   3000K |           |
| Lumen         | 630           |           |
| CRI           | 90            |           |

### Physique

|                         |                  |
|-------------------------|------------------|
| Type d'usage            | Intérieur        |
| Type de fixation        | Suspendu         |
| Dimensions luminaire    | 1600x180x1800 mm |
| Base                    | L1600xB50xH40 mm |
| cone                    | Ø150xH112 mm     |
| cone                    | Ø180xH188 mm     |
| Câble                   | 1500 mm          |
| Indice de protection IP | IP20             |
| Réflecteur              | 80°              |
| Poids                   | 8,2633 kg        |

### Électrique

|                                     |                                                                    |
|-------------------------------------|--------------------------------------------------------------------|
| Voltage de connexion                | ~230V                                                              |
| Classe de luminaire                 | I                                                                  |
| Dimmable                            | Led C                                                              |
| Remplacement de la source lumineuse | Source lumineuse remplaçable (LED seulement ) par un professionnel |
| Efficacité énergétique              | D                                                                  |
